This is who we are!

The host organization is located in the small village of Prali (Torino). Project center is a place that arose after the Second World War. A Waldensian pastor had the vision to build a place of reconciliation and peace where young people could still find a purpose after the war. Thanks to volunteers from all around the world this dream came to life. Today it's still a place of meeting and exchange between different cultures, beliefs and ideologies. Agape welcomes many people every year and offers a wide variety of activities for children, young people or adults. 17 camps and seminars are organized during the summer and winter to deal with many different topics through nonformal education (education, training, gender issues, politics, theology, volunteering, etc...).

Volunteering is a fundamental part of participation in activities and is a fundamental element of the history of the centre. Those who frequent this reality are called to live an experience of community coexistence in sharing and collaboration, which promotes the development of many key competences in building an intercultural society, first of all emotional and democratic resilience.

The Center always hosts many international volunteers and people coming from different backgrounds, fomenting participants to exercise the ability to build an inclusive community where diversity is considered a value and an enrichment for the group. Community life is managed and conducted by experienced trainers in group management and volunteering, who constantly support the growth and evolution of the group, which often develops a very strong and motivating community identity.

About the activity

The volunteer will have the opportunity to live and train in a context of community and multicultural life, crossed by challenges that lead to questioning and participation actively. The service will be characterized by activities directed to support the work of the reception structure and by activities of reflection and reworking of the personal path at an emotional, professional and relational level.

The volunteer will be part of the resident group, which is composed of about 8 long term volunteers spending one year (or more) in Project Center.

The volunteer will help in the practical organisation and management of the work in the centre, and will be involved mainly in the working sectors in which the work is divided: kitchen, cleaning, bar, servizio (setting tables, washing dishes), maintenance, bartending or babysitting (only during camps with adults). The volunteer will be involved in non-formal education moments on several topics.

These activities aim to transmit the common values of the community through the history of the place that encourages you to volunteer work for the benefit of the community and the good functioning of the project.

The aim is to propose several moments where participants can interact, discuss and learn about burning issues that are of common interest. The volunteer will also be involved in local context activities in several fields of interest such as the environment, creativity, social issues, and culture. The aim in general is to take the community values outside the organisation offering local communities opportunities to share moments, resources and interests in several events or activities organized with the volunteers' help.

The group will learn how to cooperate and lead a community lifestyle, learning how to share common spaces and resources, how to organize tasks but also free time together. In the community context the volunteer will also learn how to have a sustainable way of life, also experimenting himself in practical tasks such as cooking, cleaning or maintenance work. In this way the volunteer will also gain a set of specific and concrete skills but also will be suggested with important habits to keep in everyday life to have a sustainable, fair, ethic lifestyle. The program will also foresee leisure activities such as team game moments, or hiking, as well as creative workshops where also specific skills can be developed.

The volunteer will in general join the community life of the Center, being an active part of it, having the chance to bring personal contributions with proposals and participating in decision making processes.

Volunteering is a full-time activity, in which the service is for five days per week, scheduled from a minimum of 30 hours up to 38 hours per week. Each month the volunteer accumulates 2 days off as holidays.

Seminars

Coordinating organisation, offers 3 seminars in which the volunteer can meet with the other volunteers involved indifferent long term volunteering projects of Coordinating organisation:

- On-Arrival Seminar: at the beginning of the project mobility (October)
- Mid-Term Seminar: in the middle of the project mobility (February)
- Final Evaluation Seminar: towards the end of the project mobility (June)

Furthermore, as a volunteer within the ESC programme, 2 more seminars are offered by the Italian National Agency, in which the volunteer will meet other volunteers involved in other organizations activities and from all over Italy.

Travel

There is a budget to cover 1 trip from the leaving place to Italy and 1trip from Italy back home. The travel budget is calculated according to different distance bands that change from country to country and which increases if the trip is done with sustainable means of transport. The volunteer has to keep all the invoices, boarding passes, tickets and any proof of the expenses to be reimbursed for these expenses at arrival in Italy.

Accommodation, food and transport arrangements

The volunteer is going to be provided with accommodation and food by project center. She/he/they will live in the same place where is going to volunteer. The volunteer will live in a house with other international/local volunteers, around 8. They will all have private rooms with shared common spaces such as the kitchen, living room, laundries... The house is equipped with all necessary furniture (also towels and sheets for beds) and wifi connection. Volunteers with driving license can use the Center car.

Pocket money

The volunteer will receive 180,00€/186,00€ of pocket money, at the beginning of every month (6 euro per day) to cover personal expenses.

Visa and stay permit

For extra European volunteers who might need a visa and stay permit, there is a budget to cover all the administrative costs. The volunteer has to keep all the invoices and proof of the expenses to be reimbursed at arrival in Italy.

Food and Transport

The placement will provide the volunteer with all meals from Monday to Sunday.

From the apartment it is possible to reach the placement by feet so there is no need to take any transport to go to work. In case the volunteer wants to go to Torino or the other villages, there are many bus connections with the near city of Pinerolo.

Language course

The volunteer will have access to the Online Linguistic Support offered by the ESC programme, that will help him/her in learning the Italian language. Furthermore they will attend weekly Italian lessons organized by the Coordinating organization.

Insurance

In case of any health issue the volunteer can benefit from being insured with the Henner company, which cost is covered by the project founding. In case the volunteer comes from a European country, they also has to bring the European Health Insurance Card (EHIC) which in Italy is recognised as an official European document.
