This is who we are!

The host organization is a public school for primary and lower secondary education. The school has 560 pupils ranging from the age of 6 to 16 – from pre-school to the 9th grade. The school is an open-plan school and our core values are community, commitment, professionalism, innovation and creativity. Our dedicated staff includes 40 teachers, 12 pedagogues, 4 managers, and 8 employees working in administration, the canteen, and the service team. The school is located in Hørning, a small town of approximately 8,500 residents on the outskirts of Aarhus, Denmark's second largest city. Our 560 pupils come from diverse backgrounds, with around 15% being bilingual.

The After-School Club welcomes children aged 6 to 10 and operates on weekdays until 5 PM. It offers a variety of creative indoor and outdoor activities, including sports. The school is known for teaching the pupils to become openminded and tolerant citizens, and this effort establishes visible results: Our pupils include each other across classes and cultural differences. We have other international activities e.g. Cambridge English and hosting international work camps. We put great emphasis on language skills as well as a well-developed cultural understanding from an early age, and our pupils are taught English from the 2nd grade and German from 6th grade.

About the activity

The school is looking for four volunteers from different countries for a period of approximately 10-11 months to participate in activities at our school and After-School Club. The volunteers' tasks include assisting in various classes, the school canteen, practical assignments, and After-School Club activities. They will also engage in sustainability-focused learning projects, contribute to the School FabLab, and organize events with the pupils. Our aim is to contribute to a deeper understanding of multicultural values, equal rights, emphasizing diversity and global respect as well as the importance of sustainability. One of our aims is giving our pupils the opportunity of upgrading their language skills by hearing the correct pronunciation in classes, where the volunteers will participate. Additionally, we want to provide both pupils and volunteers with insight into different cultures, helping them gain a broader understanding of their own language, identity, and Danish culture. In general, our aim is to provide our pupils and volunteers with a better potential for the future, because they obtain the opportunity of expanding their knowledge about Europe through cooperation, learning and getting to know young people from different European countries.

Volunteer Profile

Volunteers will be assigned to about three to four year-groups, assisting in language classes and practical subjects by supporting pupils individually or in small groups based on their skills and competencies. They will also take part in the After-School Club, engaging in games, activities, and organizing creative projects such as crafts and sports for small groups of children. Additionally, weekly tasks will include practical assignments and participation in the school kitchen. All volunteers will help supervise pupils during breaks to ensure a safe and engaging environment. Additionally, learning Danish is mandatory for all volunteers. We expect volunteers to actively engage in and commit to the tasks and activities assigned to them, while collaborating with the entire school staff. Each of the four positions will involve a mix of the following activities: - Participation in the After-School Club 2-3 days a week - Pedagogical and language support to children in language classes – German and English - Pedagogical and practical support in creative and sports classes - Break guide once a day including initiating activities - Participation in implementing a new garbage sorting strategy and other sustainability initiatives - Participation in activity days with the pupils - Participation in the school canteen 3-5 hours a week - Practical assignments 3-5 hours a week - FabLab consists of e.g. 3D-printers, vinyl- and laser-cutters - Taking pictures and making films for distribution on the school's webpage or newsletter - Project planning and implementation of own initiatives with regard to sustainability and solidarity projects in cooperation with all volunteers - Individual smaller projects of personal interest - Danish classes, where volunteers will be taught Danish

Seminars

As a volunteer within the ESC programme, 2 seminars are offered by the Danish National Agency, in which the volunteer will meet other volunteers involved in other organizations activities and from all over Denmark.

Travel

Volunteers travel Denmark for the project will receive travel support based on the distance calculated using the travel band distance calculator.

Accommodation, food and transport arrangements

Volunteers will be accommodated near the school in an apartment with their own room, living together with other the volunteers, sharing the kitchen, bathroom, toilet and washing facilities, and a small garden.

Pocket & Food money

Volunteers will receive a monthly budget to provide in their subsistence.

Visa and stay permit

For Non-EU volunteers who might need a visa and stay permit, there is a budget to cover all the administrative costs. The volunteer has to keep all the invoices and proof of the expenses to be reimbursed in Denmark.

Language course
