PROJECT 1 – 2 Volunteers (TWO DIFFERENT PLACEMENTS)

This is who we are!

The host organization exists since 1999 in Kohoutovice district. It offers different types of leisure-time activities, programs for schools, competitions or other events for the public, summer camps for children. It also offers some cultural activities and events like theater plays, contemporary circus performances and workshops, festivals, juggling conventions, film festival etc.

About the activity

The task of the volunteer is to join the circus lessons for children, assist the lecturers during lessons, help children, and learn how to teach them. The volunteer will participate in the preparation of circus performances with the children, organization of events (festivals, performances, weekends for children, etc.). Previous circus experience would be an advantage (to share it with children, to bring new ideas, games, activities...).

Seminars

As a volunteer within the ESC programme, 2 seminars are offered by the Czech National Agency, in which the volunteer will meet other volunteers involved in other organizations activities and from all over Czech Republic.

Travel

There is a budget to cover 1 trip from the leaving place to Czech Republic and 1 trip from Czech Republic back home. The travel budget is calculated according to different distance bands that change from country to country, and which increases if the trip is done with sustainable means of transport. The volunteer has to keep all the invoices, boarding passes, tickets and any proof of the expenses to be reimbursed for these expenses in Czech Republic.

Accommodation, food and transport arrangements

Volunteers live in rented flats (not in the center of the city), it can happen that two volunteers will share one room for a shorter period of time (a few months). There will be 4 volunteers in the flat with 4 bedrooms. There is no living room, only common space/eating area in the kitchen. Distance to your working place from the flat can be around 30 minutes by public transport, even a bit more. Getting affordable accommodation in Brno is very difficult in recent years, so please be ready for described conditions of accommodation if you apply to our project. The advantage for you is that you will stay in quite a big city, which offers cultural and other events for young people, some even in English or other languages.

Pocket money

Volunteers get their pocket money monthly (at the beginning of each month)

Visa and stay permit

For non-EU volunteers who might need a visa and stay permit, there is a budget to cover all the administrative costs. The volunteer has to keep all the invoices and proof of the expenses to be reimbursed in Czech Republic.

Food and Transport

Volunteers get their food allowance monthly (at the beginning of each month)

Language course

The volunteer will have access to the Online Linguistic Support offered by the EU Academy of ESC programme, that will help him/her in learning the Czech language.

Insurance

Health insurance will be provided by the ESC program.

Project 1A – 1 Volunteer

Department of science: woodcraft (creating small objects out of wood and other recyclable materials with tools), technic, IT (programming), laser engraving technology, 3D print and the use of cutting plotter.

This department is a branch of the center located in Brno in the middle of a large park called Luzanky. It has several departments with different focus (painting, science, drama, yoga, computer science etc.).

They hold regular workshops for children around the age of 5-18. It organizes weekend courses, workshops for adults and also for families with children. Also offers activities for school classes. Provides summer city camps and also summer camps for youngsters.

The department is looking for an STEAM skilled volunteer that would work mainly with children in handcraft classes and also IT and digital technology. We expect the volunteer to help us with various workshops and also to be involved in organizing summer camps for children. English communication skills are needed.

We prefer a volunteer who generally likes to work with small children as well as with teenagers and has a positive attitude towards technical issues.

Project 1B – 1 Volunteer

The main directions of our activities are sports and tourism, followed by crafts and arts. Our sports activities mostly take place in the surrounding nature and have an environmental impact. For example, we organize the Bílovický hovníál environmental trail or we have a group focused on speleology and karst. In addition to clubs, camps and events for the public, we also run Minigolf, where educational programs are also held.

The workplace is located in a smaller town Bílovice nad Svitavou on the outskirts of Brno, surrounded by forests and hills. It is on the railway route to the Moravian Karst, the largest karst area in the Czech Republic. However, it is very easily accessible by transport to the center of Brno, the journey takes less than ten minutes.

We have a large number of other groups, e.g. photo group, electrical workshops, small DIY, Cooking group, rescuers, Parkour, etc. Our specialty is story groups, where children act as their own characters and create a story together throughout the school year. There is also a mini-preschool in the mornings at Liška. English communication skills are needed.

During the school year the volunteer would participate by assisting in the clubs and their preparation (DIY club, cooking club, sports club in nature etc.). The content of the activity will also include the preparation of clubs + one-off events ("Liška nikdy nespí", neighborhood celebrations, Christmas workshops, Martin's celebrations, sleepovers and short suburban camps).

PROJECT 2 – 1 Volunteer
