This is who we are!

The host organization is an association from a movement of non-formal education which places in its core values solidarity, voluntary involvement and a strong political will. Our choices and our actions are influenced by our vision of the society, in which progress is social, where the respect of human beings and the environment is a fundamental and shared value, where freedom to choose, to dream and to resist is innate or fostered.

Our activities are organised for all, no matter gender, social and cultural background, or nationality. The host organization, since its creation, participates concretely in peace construction, fostering intercultural meetings in France and abroad.

The host organization works through participative pedagogy which encourages initiatives, valorizes commitment and gathers forces and intelligences from all: volunteers and employees.

The host organization is composed of one National Secretary based in Paris, eight Regional Delegations, and one partner association. Our delegations host volunteers from France and from all around the world, either temporarily or all year long. Furthermore, these delegations and partners also support and host young people with fewer opportunities, as part of inclusion and solidarity actions.

All these friendly delegations and partners are located in singular and original sites (castle, former campsite, isolated villages in the heart of mountains, former factory, etc.). These places have all been renovated thanks to the volunteers and the people involved in these projects. People live, meet, and enjoy time together there.

About the activity

The objective is to take care of the place which hosts our project, everyday volunteers work for this. Moreover the objective of the "environmental project" is to develop educational tools to raise awareness of a lifestyle more respectful of nature. Group and individual inclusive hosting:

La Maison des Bateleurs regularly hosts groups (between 7 and 14 teenagers) on short breaks to allow them to discover the values of the association through their participation in workshops: construction, work, community life, intercultural exchanges... The volunteers will be involved in hosting and animation of these groups. They will establish the schedules of activities and work, will lead workshops and will support young people in their integration within the association. During these hostings, we work the morning, proposes some activities on the afternoon and on the evening. Individual hosting is for teenagers with some social, family difficulties, the goal is to include them in the volunteers' group to support them to be more confident, to discover the collective co-construction, to help them in their professional path, to find a place in he society, ...

The aim is to include them to our project to discover the association environment, the interculturality, the volunteering and the mobility possibilities. With the long term volunteers, they will work and experiment news things, they will help some local associations and participate in the collective life. Moreover is the way for them to define their professional career toward a job or training...

International work-camps:

Our main activity is to gather people from all over the world through international project to help and work for a public cause. An international work-camp could be around environmental, cultural or social cause, or around building renovation. These camps normally consist of 12 international and local volunteers.
