This is who we are!

Aitoo Vocational College (Aitoo koulutuskeskus) is a vocational institution that offers education for students with disabilities. The students need additional support in learning and studying regularly due to learning difficulties, disabilities, illness, or other reasons. We offer education and training for students with the most severe disabilities or chronic illnesses.

The fields of study are household and cleaning services, janitorial services, catering services, and crafts and design. We also offer pre-vocational programmes, such as preparatory instruction and guidance for those who do not yet have a clear idea of their career choice.

We aim at ensuring education and training for and empowerment of young people with disabilities. We want to provide together with different actors, such as social and health care services, for young people with the best possible tools to work and manage their lives after their studies.

Our main campus is located in Aitoo, Pälkäne, and we have a smaller teaching unit in Tampere. The total number of students is about 120. The students' age varies from 16 to 20+ years. The students live on the school premises during the study week. We employ over 70 people.

About the activity

As a volunteer at Aitoo, you will assist the students and the staff at the vocational college and at the student dormitory in Aitoo. The tasks will include assisting in guiding the students and spending time, discussing, and having cultural exchange with them. You will also facilitate activities, such as hobbies and games, and assist the students in moving around. You can also help with practical tasks at the college. You can volunteer in the day or evening shift. The tasks will be planned more in detail based on your interests and skills. Please tell us in your application what kind of tasks you are interested in and what kind of skills you have.

At Aitoo Vocational College, you will get a chance to take part in meaningful volunteering among students who need additional support and build international contacts at the grass root level. For the students, the interaction with the volunteer will offer a good way to gain international know-how. These tasks will support participation, diversity, and normalisation – both from the point of view of the volunteer and the host organisation.

Volunteer Profile

- Age: 18–30 years old
- Volunteering at Aitoo could suit you well if you are interested in working with young people (with disabilities). You also need to have an open-minded attitude towards differences and be flexible, towards changes in the planned daily routines, for example.
