### This is who we are!

After extensive reconstructions, the educational eco-centre began to operate in 2012 in the historically and architecturally interesting building of the original mill from the 17th century, later the family villa of Aleš Kaprál - the famous inventor. The interesting history and unique geographical location ensures unforgettable adventures.

We also operate internationally - since 2008 we have been a member of the international network of centers with Scenes certificate or the European Goose network. We also work in partnerships with scouting and eco-education centres across the world.

### About the activity

You will assist with the overall care of guests during and after their stay. You'll be working shifts in the info-shop, helping with the cleaning, also with the care and maintenance of the garden and the entire outdoor and indoor area. Sometimes you'll help in the kitchen.

We have many educational programs for different age groups. You will help with their preparation and running. After thorough training, you will even lead some programs yourself - for example excursions to caves and much more.

We also organize events for the public, such as open days, scout festivals and educational fairs. You will help us with the organisation and preparation of these events.

Eco-center is located in a protected landscape area, which we take care of in special ways that we will teach you. We are also part of several ecological and conservation projects that you will be part of. We manage and care for the landscape, herd sheep, keep bees, save frogs, work with local produce.

We are on social media, in the press, documenting projects, organising events. You'll be a part of it all, and we welcome your ideas and skilled hands. Photography, graphic design, writing, filmmaking... choose yours.

After the first weeks, you will think and plan your personal project, which should improve and demonstrate in practice the knowledge and experience you have gained during your volunteering. Each volunteer works under the supervision of an assigned staff member who provides the necessary support, assistance and knowledge. The project will then also serve as a beautiful memory of your time at the mill.

## Volunteer Profile

- Age: 18–30 years old
- knowledge of English at a communicative level
- initiative - sometimes you need to ask or think of the next thing to do on your own.
- Or just help where it is needed most without being asked to do so
- flexibility - things can change quickly compared to the schedule and we expect
- you to have no problem with that
- manual work - you should be prepared for that. It's not easy to prepare wood
- for winter or work in the orchard for the whole day outside
- non-conflict - you'll be doing most things as part of a team, and sometimes
- the working atmosphere can be stressful when there's a lot to do
- high ethics - we give you full trust, which also means we expect you to take full
- responsibility for your actions
- endurance - some days are harder on the mill than others. Rainy, freezing, busy
- days... some days you'll have to manage on your own
