This is who we are!

The host organization was established through the initiative of a group of young people who believed that meaningful change begins with each individual and can only be achieved through practical action and active involvement. Recognizing the growing environmental challenges facing our planet, the founders identified environmental protection and ecology as key areas requiring urgent attention. As a result, the host organization was created to inspire initiative among young people and contribute to changing attitudes towards environmental responsibility and sustainable living.

The host organization is an apolitical, non-governmental, non-discriminatory, civic, and independent organization, founded in June 2020 through the voluntary initiative of its founding members. Its main objective is to promote environmental awareness among young people, encourage active citizenship, and support the development of sustainable lifestyles and solutions.

About the activity

Our project's focus is on interactive educational games and activities catered to youth in non-traditional learning environments. Our three main teaching points are environmental awareness, social inclusion, and increasing digital competence.

- Providing daily non-formal educational activities tailored to children and young individuals from nearby schools and kindergartens situated in disadvantaged areas within Timișoara and its surrounding peri-urban regions (Moșnița Nouă).
- Organizing cultural and volunteering initiatives aimed at fostering tolerance, inclusion, voluntary engagement, and solidarity.
- Organizing environmental campaigns.

- Equipping young people with the necessary skills and knowledge to contribute to environmental protection efforts and address the challenges posed by climate change.
- Engaging in volunteer work at local music festivals.
- During the summer season, volunteers will oversee and coordinate various themed summer camps for children, as well as local community activities.
